Guidelines for spending project grants for MACS funded students

Heriot-Watt led students – CDT RAS Phase I

Students who are funded by a MACS scholarship need to apply to MACS for funding for travel. Since this budget is finite, students must get approval for ALL spend before they make any bookings.

Unfortunately, there is no budget for equipment or consumables.

Students who wish to attend a specialist training course must seek alternative sources of funding.

Note: Since expenditure is being charged to MACS, final approval comes from the budget holder and not the CDT.

All bookings must be made via MACS.
